Snowman Button Art

Supplies included:	***Additional supplies needed:***
Painted OR unpainted board	Paint or stain for unpainted board
White buttons	Paint brush
Black buttons	Hot glue gun
Blue buttons	Glue sticks
Orange buttons	

Step 1

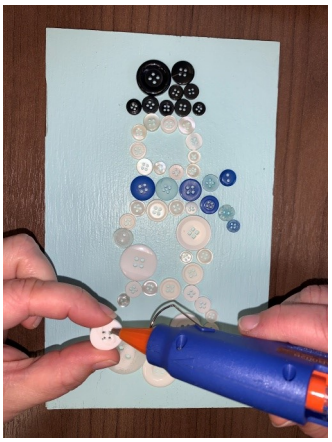
Paint or stain the board if your kit includes an unpainted board. If you like to paint, create a snow scene with trees. Be creative!

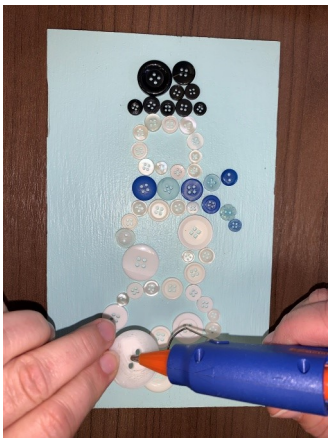
Step 2

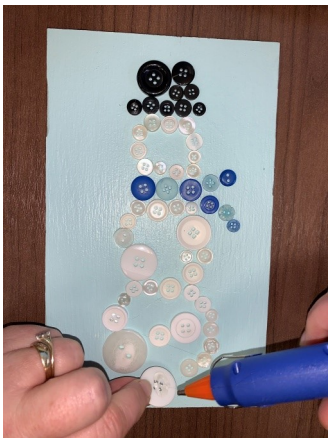
Start laying out the buttons on the board by creating two circles of white buttons for the body of the snowman about 1/2 inch from the bottom center of the board. DO NOT GLUE ANY BUTTONS AT THIS POINT. Lay the blue buttons above your two circles to create a scarf. Add another circle of white buttons above the scarf for the snowman's head. Above the head, place a row of black buttons for the hat brim. Then add more black buttons for the top hat.

Step 3

So far none of the buttons have been glued down. If you like how your snowman is looking, attach the buttons with a hot glue gun. This will get messy and stringy!!







Step 4

Once your buttons are attached to the board, add more! Use ALL of the white, blue & black buttons in the kit! Layer the buttons on top of each other.

Step 5

Attach the three orange buttons as a carrot nose on your snowman.
